## RECOGNITION OF PRIOR LEARNING (RPL)

### Start of training course:

A response system is applied to carry out an initial evaluation of knowledge, before students start their VET course.

### At each on-site training event:

Response tools are applied to evaluate students knowledge during start-up of each on-site training activity.

### Optimised Effect of Training

What to teach ?  
How to teach it ?  
When to apply peer learning?
